

New LIS Questions

If you are looking to replace a current LIS or just starting out, we have assembled a few important questions to ask before you make a decision.

- Does your current LIS actively develop and introduce new features?
- Does your current LIS charge for interfacing with other systems?
- Can you run insurance eligibility from within your current LIS?
- Does your current LIS have a Patient Portal that enable pre-registration off any mobile device?
- Does your current LIS have an integrated merchant services solution that allows for patient payment at point of registration?
- Does your current LIS offer HIPAA-compliant and secure electronic lab results delivery to patient?
- Does your current LIS provide QR Codes for verification of lab results (COVID, Vaccination Status)?
- Does your current LIS offer a Provider Portal where the referring physician can access patient results?
- Is your LIS security-compliant? Are they SOC certified?
- Does your current LIS provide specimen management and tracking?
- Does your LIS offer auto-faxing functionality?
- Does your current LIS offer custom reporting and analytics?
- Can your current LIS interface with Health Reporting Agencies?
- Does your current LIS offer user-specific modifications and augmentations of features and functions within the UI?
- Does your current LIS take your development requests into consideration for future feature releases?
- Does your current LIS offer a digital log of every action taken by every user so that management can review if necessary?
- Does your current LIS charge per user?
- Does your LIS have a QC function that tracks lot numbers?
- Are you able to file and manage claims out of your current LIS?
- Does your current LIS offer integrated clearinghouse solutions?

Don't take our word for it. We'd be happy to introduce you to some users of the GoRev LIS!
